**EXPLANATORY NOTE**

The continued rise of the demand for care giving service in the Philippines makes it an important national concern. The availability of professional and responsive care giving must be ensured, especially in the light of the country's aging population, the increase in the number of children born with medical issues, and the emergence of new illnesses that require special supportive care.

Corollary to this, the important role of caregivers in national development must also be recognized, and policies in the practice of the caregiving profession must be instituted to protect caregivers from abuse and exploitation.

In view of the above, this bill seeks to institute policies to maintain excellent and globally competitive standards for the caregiver professional service, and for the protection and welfare of caregivers in the Philippines.

The immediate passage of this bill is earnestly sought.
