HOUSE BILL NO. 3129

HOUSE OF REPRESENTATIVES

REPLACEMENT
BILLS TO RECONSTRUCTION

Introduced by **Congressman Carlo V. Lopez**

EXPLANATORY NOTE

We have been witnesses to the deplorable conduct of public utility agencies, companies or corporations, both public and private, that supply water, light, power, gas, telephone and other services, of leaving the road, street, passageway or pathway where an installation maintenance or repair work was done in a very deplorable and dangerous situation. More often than not, the repair or reconstruction takes place many months later and in a haphazard way. In the meantime, the poor residents of the area suffer the inconvenience of using the road, street or passageway in dire need of repair. Besides the strong clamor for necessary completion by residents affected, owners and managers of these public utilities completely ignored such calling.

This bill seeks to relieve the suffering public by requiring the utility agency, company or corporation to repair or reconstruct the place within seventy-two (72) hours from completion of the work. To ensure compliance thereof, the proposed law requires the punong barangay or the barangay secretary to issue a certificate of repair work completion which will be the basis for any further activities that any public utility companies or enterprise which may venture out in the same barangay.

Hence, the immediate passage of this bill should be given a paramount importance.
