18TH CONGRESS
First Regular Session

HOUSE BILL NO. 6946

Introduced by HON. ALFREDO A. GARBIN, JR.

EXPLANATORY NOTE

Undoubtedly, broadcast industry plays a vital role in the development and growth of our country and, ultimately, in shaping our country’s future. It promotes public participation and influences public opinion on important matters concerning our country.

It is noteworthy to emphasize, however, that broadcast industry is capital intensive and high technology dependent. In other words, to fully harness and utilize its benefits, substantial and considerable investments on emerging and modern broadcasting facilities are needed. Needless to state, only after investing in a state-of-the-art, sophisticated, and efficient broadcasting and transmission system can we expect positive changes and improvement in the means information is received by, and disseminated to, the public.

Thus, it is imperative that the government continue to play an active role in sustaining and encouraging the development of broadcast industry. The government has to attract, promote and welcome more capital infusion and investments into broadcast industry. Equally important, the government has to ensure that any and all existing media infrastructure and facilities are utilized to the fullest extent possible and that the owners/investors thereof could continue their service and assistance to the nation.

In its commitment to provide innovative ways to deliver public service to the Filipino people, Servotron Industries, Inc. (“Servotron”) has made, and intends to make, significant capital investments to upgrade, improve, and enhance its broadcasting facilities and transmission system. These investments are expected continue with the government-mandated shift from analog transmission to digital transmission. In recognition of the capital requirements of Servotron’s operations, the renewal and expansion of its franchise are recommended to fully utilize the capital invested therein, to ensure the uninterrupted, nationwide, and improved delivery of its services to the Filipino people, to fully assist the government in disseminating information to the people, and to enrich, enhance, and improve the broadcasting system in our country.

In view of the foregoing, this bill is respectfully submitted for consideration and approval.
