EXPLANATORY NOTE

The TUPAD or Tulong Panghanapbuhay sa Ating Disadvantaged/Displaced Workers is a community-based package of assistance that provides for a short-term emergency employment program for displaced, underemployed and seasonal workers. It is a program that acts as a social safety net to assist displaced or vulnerable workers in the informal economy and get them back on their feet by providing them wage employment to mitigate the impact of calamities, disasters, and epidemics on their livelihoods.

The COVID-19 pandemic has caused great economic turmoil to all Filipinos and especially to those who have little or no security of tenure in employment. As of April 2020, the Philippine Statistics Authority (PSA) reports that the country’s unemployment rate has jumped to a record of 17.7% or 7.3 million people jobless due to the lockdowns imposed from the pandemic. The government therefore is tasked to enact and implement innovative labor policies in order to create economic opportunities for all Filipinos affected by the pandemic.

As the country moves into the “new normal”, the Department of Labor and Employment (DOLE) implements the TUPAD program as a post-COVID intervention measure to help informal sector workers recover from economic displacement and loss of income due to the enhanced community quarantine (ECQ). It is estimated that close to a million workers in the informal economy will benefit from the government’s emergency employment program. In fact, the DOLE is extending the period of the TUPAD program from ten (10) days to three (3) to six (6) months in order to alleviate the growing economic concerns of disadvantaged and displaced workers.

Furthermore, to respond to the urgent needs of the growing number of unemployed and displaced workers’ current crisis, several proposed legislations have prioritized and provided a substantial amount for the budget of the TUPAD program in recognition to its beneficial effects.

Thus, it is incumbent upon the State to alleviate the plight of all disadvantaged and displaced workers in the time of crisis by providing the necessary economic and labor opportunities as soon as possible. Under this bill, the TUPAD program is institutionalized whereby the DOLE is authorized to implement, motu proprio employment projects in cases of massive displacements, defines the eligibility of the beneficiaries qualified in the program, provides for the modes in implementing the program, and ensures the payment of at least the minimum wage rate for non-agricultural workers in the area of project implementation.

In view of the foregoing, immediate passage of this bill is earnestly sought.
