AN ACT
PROVIDING FOR THE LIFETIME VALIDITY OF BIRTH CERTIFICATES
ISSUED BY THE PHILIPPINE STATISTICS AUTHORITY
AND FOR OTHER PURPOSES

EXPLANATORY NOTE

A birth certificate is an official form issued and certified by the Philippine Statistics Authority. It is a document that provides personal records of an individual regarding birth, sex, nationality, and parent’s information. This is the very document that authenticates an individual’s identity. A birth certificate is a basic requirement for education, marriage, employment, social security coverage, and eligibility for assistance may it be from a public or private sector.

This form is printed in paper with specifications in order to secure and provide integrity to the document. The Philippine Statistics Authority issues birth certificates that only lasts for six (6) months. That means, an individual must secure a new copy every 6 months, if needed. The expiration of this document results in additional unnecessary expenses for ordinary Filipinos who are required to submit this basic requirement. In addition, this increases the struggle of first-time jobseekers who are required to submit a copy of their birth certificate in the course of their job applications. Thus, this bill seeks to strengthen the scope of validity of birth certificates beyond six months.

In view of the foregoing, the passage of this bill is earnestly sought.
