House Bill No. 7155

INTRODUCED BY
REP. ALFRED VARGAS

AN ACT
REQUIRING THE ESTABLISHMENT OF QUARANTINE FACILITIES IN EVERY REGION IN THE COUNTRY, PROVIDING FUNDS THEREFOR, AND FOR OTHER PURPOSES

EXPLANATORY NOTE

With the persistence of the coronavirus disease (COVID-19) outbreak in the country, there exists an urgent need to establish adequate quarantine facilities to aid the public health sector in the delivery of services and taking care of patients. The World Health Organization recommends quarantine strategies or isolating persons who have or are suspected to have been exposed to a serious contagious or infectious disease. Hence, quarantine or isolation mechanisms should be institutionalized to be part of standard medical precautions to be taken to prevent the spread of any infectious disease.

This bill seeks to establish adequate quarantine facilities in every region to prepare for such outbreaks. These facilities are designed for patients or persons who have or are suspected to have epidemiologically important pathogens that can be transmitted by airborne, droplet, or physical contact that may lead to infectious diseases. These facilities shall provide utmost care to patients and protect the public from further experiencing health risks brought about by epidemics.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
