Republic of the Philippines  
HOUSE OF REPRESENTATIVES  
Quezon City  

EIGHTEENTH CONGRESS  
Second Regular Session  

HOUSE RESOLUTION NO. 1151  

Introduced by REPRESENTATIVE VIRGILIO S. LACSON  

A RESOLUTION  
DIRECTING THE APPROPRIATE COMMITTEE OF THE HOUSE OF REPRESENTATIVES, TO CONDUCT AN INQUIRY, IN AID OF LEGISLATION, ON THE POSSIBILITY OF USING PERSONAL PROTECTIVE EQUIPMENT/S BY DRIVERS OF MOTORCYCLES INSTEAD OF THE USE OF BARRIERS BETWEEN THE DRIVER AND THE PASSENGER.  

WHEREAS, the current pandemic has forced the government to implement measures that would help the prevent spread of the COVID-19.  

WHEREAS, one of these measures is the mandatory use of motorcycle safety dividers or barriers between the motorcycle drivers and passengers which the National Task Force against COVID-19 approved recently.  

WHEREAS, the government has approved two prototypes for the motorcycle barrier, to wit: 1) plastic barrier with a steel frame that divides the rider and passenger, and; 2) barrier similar to a backpack which will be work by the motorcycle driver.  

WHEREAS, however, the use of such divider or barrier may pose serious dangers to both the motorcycle driver and passenger as this may cause imbalance or said divider/barrier may cause accidents while the motorcycle is moving.  

WHEREAS, one measure that the government may adopt in order to address the issue on the spread of the virus is the use of Personal Protective Equipment/s (PPEs) for the motorcycle driver and/or passenger. The use of Personal Protective Equipment (PPE) akin to those being used by health
and medical front-liners are both safe and proven to protect against COVID-19.

NOW THEREFORE, BE IT RESOLVED AS IT IS HEREBY RESOLVED, by the House of Representatives that the appropriate committee conduct an investigation, in aid of legislation, on the possibility of using personal protective equipment/s by drivers of motorcycles instead of the use of barriers between the driver and the passenger.

Adopted,
