THE HONORABLE SPEAKER
HOUSE OF REPRESENTATIVES

EXPLANATORY NOTE

Fisheries, aquaculture, and maritime transportation are important sectors in Samar Island. Subsistence fishing communities dot the coast of the island of Samar and fishing provides for the livelihoods of a significant portion of those below the poverty line in the island.

The Maritime Industry Authority (MARINA) supervises and regulates the use of vessels, both small-scale fishing boats and large crafts for transport. The agency likewise provides for financial assistance to the industry and technological assistance to fishermen.

While the MARINA in Region VIII has been fulfilling its duty to the best of its abilities, the mere fact that its regional office is located in Tacloban City, Leyte makes it difficult for residents of Samar Island to consult the agency, request for assistance, and comply with its regulations.

In light of this difficulty, this bill, which was first filed during the 17th Congress and docketed then as House Bill no. 4719, seeks to expand the capacity of the MARINA satellite office in Calbayog City, Samar Province to act as a sub-regional hub and address the needs of the residents of Samar Island by converting it to an extension office and providing the necessary funds and personnel.

Furthermore, the Secretary of Transportation and the MARINA are authorized under this bill for a limited period, to reorganize the offices within Region VIII to deliver efficient services to both islands. For instance, the MARINA may see fit to subdivide its services in the region to provide for two regional hubs: Region VIII-A for Leyte Island and Biliran Province, and Region VIII-B for Samar Island.
For the aforementioned reasons, the undersigned submits this bill for the consideration of this august body.
