SEVENTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 1564

Introduced by **Congressman Alfredo D. Vargas III**

EXPLANATORY NOTE

It is stated in Section 15 of our Constitution that, to wit :

“The State shall protect and promote the right to health of the people and instill health consciousness among them.”

The Philippines is, arguably, a westernized country with a westernized educational system. Our medical schools teach western medicine ---- medical practices as it evolved in Europe and North America. There is however, a need to be more open to alternatives to western medicine.

In the 1970's, then U.S. President Richard Nixon visited China. The visit, covered in all the international media and press, sparked a curiosity and a new openness to all things Chinese. The Filipinos thus became aware , on a widespread scale, of Acupuncture.

The decades have passed and interest in, and study of, acupuncture has accelerated in the Philippines.

Orthodox western medicine, copied by our own westernized medical school system, retains a cautious attitude about acupuncture. But it has grown to be widely accepted among the “alternative” health systems. Acupuncture clinics have mushroomed in recent decades.

Acupuncture had been proven to have the following positive characteristics :

- a) the side effects are fewer;
- b) its procedure is simple;
- c) it is a cure for a wide range of diseases;
- d) it possesses a good curative effected compared with other modes of treatments.

But if acupuncture is not performed competently, it could harm the patient. Thus, it is necessary to regulate the practice of acupuncture to ensure that only licensed acupuncturists can perform this alternative practice.

This proposed measure seeks to regulate the practice of acupuncture in order to protect the safety, health and welfare of Filipinos, and at the same time, make it available to anyone who wishes to avail of it.

The bill creates a Board of Acupuncture within the Department of Health. It shall consist of three (3) members appointed by the Secretary of Health. Two board members must be licensed acupuncturists.

The members of the Board of Acupuncture shall be appointed for a four-year term or for the remainder of the unexpected term of vacancy.

The passage of this proposed measure is earnestly urged for the abovementioned reasons.
