

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

SEVENTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 1806

Introduced by Congressman Alfredo D. Vargas III

EXPLANATORY NOTE

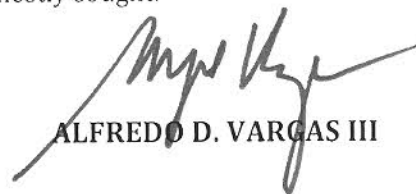

As part of the country's Millenium Development Goals (MDGs), the Philippines aims to improve maternal health by 2015.

According to the 5th Philippine Progress Report on the MDGs, however, it can be inferred that the Philippines may have not met its MDG target on maternal health as the maternal mortality ratio increased from 209 deaths per 100,000 live births in 1990 to 221 deaths in 2011, failing to meet the 2015 target of 52.

Thus, the State must continue to strive for the improvement of maternal health in the country and initiate programs to ensure that maternal health is protected.

This bill seeks to establish a Pregnancy Support Services Office under the Department of Health. The proposed office will be tasked to encourage and assist pregnant women to carry their children to live birth by providing services during and after pregnancy. Thus, this measure alleviates pregnant women and their families from the difficulties that may otherwise lead to abortion or death of a child during childbirth.

In view of the foregoing, passage of this bill is earnestly sought.

ALFREDO D. VARGAS III
