First Regular Session

House Bill No. 760

Introduced by **HON. ROZZANO RUFINO B. BIAZON**

EXPLANATORY NOTE

Article XIV, Section 1 of the Constitution declares:

"The State shall protect and promote the rights of all citizens to quality education at all levels and shall take appropriate steps to make education accessible to all."

To implement this Constitutional mandate, the State shall provide the mechanisms to broaden opportunities for higher education in addition to what is already provided for in RA 6014, "The Study Now Pay Later Law", and RA 6728, "The Government Assistance to Students and Teachers in Private Education Act."

This bill therefore proposes to further broaden opportunities for higher education by enabling qualified Social Security System (SSS) and Government Service Insurance System (GSIS) members to insure the college education of their children through the College Education Trust Fund created under this Act. This fund consists of the premiums paid by the Member. This bill seeks to guarantee the completion of a basic four year or five year college course.

Coverage under this college education insurance plan is optional for all members regardless of civil status, with or without a child. The benefits provided for under this Act can only be availed of by members who have completed their policy prior to enrollment of the child in college. The GSIS or SSS, as the case may be, will pay the college education of the child no matter what the cost at the time of enrollment. It is in effect paying for the child's education tomorrow at today's prices. The payment is made directly to the school, thus preventing the funds from being used for other purposes. Included in the benefits are the payment for non-standard fees such as materials, books, supplies and even board and lodging expenses that may be incurred in the pursuit of such education. This Bill likewise provides incentives to scholars and enrollees of courses in agriculture, fishery, forestry, science and technology.

For many Filipinos, college education remains an elusive dream. So that their dreams may come true and to strengthen education as a means for upward mobility, passage of this bill is urged.
